

## Consent form of the CHARLS-Survey 2023

Welcome to the CHARLS study!

This study is part of the University Research Priority Program (URPP) "Human Reproduction Reloaded | H2R" of the University of Zurich. It is a study about opinions, experiences and wishes around reproductive medicine, the desire to have children and family images.

Further information about the study can be found on our project website. The survey will take approximately **30 minutes** to complete.

Participation in the study is **voluntary**. You can also skip single questions. There are no advantages or disadvantages associated with participating in the study and you can discontinue participation at any time during the study.

**Confidentiality will be strictly maintained** during the entire study. After the end of the data collection, the data will be processed and made available to the scientific community in anonymized form under strict conditions.

You can contact us via e-mail: [charls@humanreproduction.uzh.ch](mailto:charls@humanreproduction.uzh.ch).

Please click the box below to indicate that you have read and understood the information on this page, that your questions have been answered, and that, based on the given information, you are giving your informed consent to voluntarily participate in the CHARLS study.

*This is a copy of the consent form on the invitation page of the online questionnaire. The survey cannot be completed without consent.*
